PRECAUTIONS FOR SAFE HANDLING AND USE

Steps to be Taken in Case Material is Released or Spilled:	Keep area well ventilated. Employ normal sanitation procedures to reduce risk. Spills produce slippery surfaces. Flush with water
Waste Disposal Method: *	Large quantities - sanitary landfill Small quantities - normal sewage disposal
Precautions to be Taken in Handling and Storing:	Non-seasoned metal should be avoided. pH should be monitored and adjusted as required. Tank contents should be circulated periodically. Tanks must be vented and purged with air before entry. Observe standard tank entry precautions.
Other Precautions:	Tanks must be well ventilated. Additional handling recommendations are available on OPI Technical Bulletin <i>GUIDELINES FOR THE STORAGE AND HANDLING OF CONDENSED MENHADEN FISH SOLUBLES</i> .
